COMMONLY CREATIVE

Taking a cue from its infamous 20th-century window designer and artistic director, Gene Moore, who often used found objects in his installations, Tiffany & Co. is bringing art to the everyday with its new home collection, out in November. Handcrafted in glass, porcelain, and sterling silver, the line of over 300 pieces ranges from crazy straws to the quotidian coffee can pictured above (\$1,500). —*Codie Steensma*
